Strategic Plan

For the first time in our district's history, Gretna Public Schools has developed a comprehensive **Strategic Plan** to guide our future. Since April 2024, we have worked alongside **Kordica Communication** to facilitate discussions, organize focus groups, and gather valuable input from a diverse range of stakeholders—including students, teachers, classified staff, administrators, parents, Citizens Committee members, city officials, school board members, and local business owners.

Through this collaborative effort, we identified four key focus areas that will shape our district's priorities from **2025 to 2029**:

- **Curriculum, Instruction, and Assessment**
- **Growth, Climate, and Culture**
- **Mental Health**
- **Recruitment and Retention**

These four focus areas serve as the foundation of our plan, providing a roadmap for continuous improvement, stakeholder engagement, and aligned district actions. Together, we are committed to ensuring a strong and successful future for Gretna Public Schools.

Curriculum, Instruction and Assessment

GOAL

All students will maximize their individual growth through engaging curriculum and strategic instructional goals.

Growth/Climate and Culture

GOAL

As the district grows, we will address facility needs and nurture a culture that honors the past, celebrates the present and builds a safe and welcoming future for all.

Share & Celebrate

Mental Health
